Subject: RECEIVED CALL TODAY FROM EPA HQ

David, Vicki,

I wanted to let you know that I received a phone call today from Jessie Wieder at EPA HQ (202-343-9201). She works in the radiation program. EPA HQ had received two public inquiries regarding Treasure Island radiological issues and she wanted to verify who the Navy point of contact was to refer the callers to.

I identified myself as the point of contact for the public, and I also gave her Melanie Ault's name and number for any media contacts. (Melanie and I both work in the Navy BRAC office in San Diego.)

I told Jessie that TI was non-NPL, and I identified David as the Region 9 project manager. Since she worked in radiological, I also mentioned that Rob Terry had supported the project in the past for rad.

Jim
